

Announcements – July 9, 2020

The Continuing Education Office Is Still Open!

Nancy Bjorklund, EdD, Director of Continuing Education

We are still able to assist with new applications, virtual conference services, COVID-19 credit questions, and all other services the CE Office provides. Please email the Continuing Education Office at ce@med.wmich.edu with any questions or conference services inquiries.

CE Portal Maintenance

Ian Donmoyer, Instructional Technology Coordinator

On July 15th, the CE Office will be doing an overhaul of the CE Portal (wmed.cloud-cme.com). Certain functionality of the CE Portal may be unavailable during this time. We will be updating the home page with a new layout but all functionality will remain the same after the update.

COVID-19 Update

Kelsey Caras, Data and Development Specialist

Since March 17th, the CE Office has accredited over 400 COVID-19-related activity sessions and granted over 5,000 cumulative continuing education hours for 500 of our healthcare professionals.

The CE Office remains available as a resource to healthcare professionals who are seeking credit and accredited activities relating to COVID-19. Per the Michigan Executive Order 2020-49, WMed will recognize hours worked responding to the COVID-19 pandemic as hours toward continuing education credit or programs required for licensure from March 17th through June 8th. You can still claim those hours by visiting our COVID-19 resource page: <https://wmed.cloud-cme.com/default.aspx?p=1200>

Our office can still assist with hosting or creating any new COVID-19-related content. Please contact the CE Office at ce@med.wmich.edu.

Activity Coordinator Updates

To maintain best practices in accordance with our accrediting agencies, the CE Office is requiring coordinators to provide more specific objectives for RSS sessions/children.

If you would like a more detailed explanation of how to write session-specific objectives, please view our tutorial in video or PDF format:

CE Activity Application: Gaps, Needs, Objectives & Outcomes (2:59)

 [Download Tutorial in PDF Format](#)

Examples of RSS session/child-specific objectives:

Knowledge

At the conclusion of the activity, all attendees will be able to identify the proper way to dispose of sharps.

Skill/Strategy

At the conclusion of the activity, all attendees will be able to demonstrate the proper way to dispose of sharps.

Performance

At the conclusion of the activity, all attendees will be able to implement proper procedures for disposal of sharps.
